

Capability Statement

Operational Support for U.S.-Middle East Projects

Gulf American Logistics is a U.S.-based operational support company providing logistics, field execution, procurement, interpreter support, and on-ground coordination for contractor-led and U.S.-linked project requirements.

Company	Gulf American Logistics LLC
Headquarters	Duluth, Georgia, USA
Primary Contact	contracts@gulfamericanlogistics.com
Coverage	Saudi Arabia, UAE, Kuwait, Qatar, Bahrain, Oman
Positioning	Operational support for U.S.-Middle East projects

Differentiators

- 25+ years Gulf familiarity
- 10+ years Saudi business experience
- Recognized for operational support during U.S. Marine Corps-led exercises
- Experience in structured, high-pressure environments
- Strong logistics, procurement, interpreter, and field coordination capability

Operational Capability

Operational Capability

Service Line	Description
Field team deployment & coordination	Execution and coordination of field deployment requirements tied to active project timelines.
Vendor sourcing & procurement management	Execution of procurement requirements, regional sourcing, and vendor coordination for live project needs.
Interpreter & local liaison support	Arabic-English field and operational communication for site coordination, reporting, suppliers, and local liaison requirements.
Logistics & supply chain execution	Movement coordination, delivery execution, and supply-chain follow-through across Gulf-region work.
Emergency / time-sensitive response	Rapid coordination for urgent movement, sourcing, and compressed operational requirements.
Structured operational environment support	Project support in structured operational environments requiring coordination, responsiveness, and execution.

How We Operate

- Requirement Assessment
- Resource Deployment
- On-Ground Execution
- Delivery & Reporting

Experience

Relevant Operational Experience

- Lead Interpreter -- U.S. Marine Corps-led Exercise Red Reef
- Recognized by U.S. Marine Corps units for operational support
- Supported coordination between U.S. Marines, U.S. Navy, and regional forces
- Logistics, sourcing, field coordination, and execution across Gulf-region operations

Leadership

Farhan Tariq | Founder & CEO

Farhan Tariq is the Founder & CEO of Gulf American Logistics, a U.S.-based operational support company focused on U.S.-Middle East projects.

He brings over 25 years of familiarity with Saudi Arabia and the Gulf region, along with hands-on experience in construction, logistics, procurement, and field operations.

He also has over a decade of experience in the United States, providing strong understanding of U.S. business and operational standards.

His background includes serving as Lead Interpreter during U.S. Marine Corps-led Exercise Red Reef, supporting coordination between U.S. Marines, U.S. Navy, and regional forces. He was formally recognized by U.S. Marine Corps units for exceptional performance and operational support during joint exercises.

This experience reflects real-world exposure to structured, mission-driven environments requiring precision, responsiveness, and execution under pressure.

Regional Coverage

Core Gulf markets

Country	Operational Focus
Saudi Arabia	Operational coordination, interpreter services, procurement execution, and project follow-through across active requirements.
United Arab Emirates	Regional sourcing, vendor coordination, logistics execution, and GCC-linked delivery of project requirements.
Kuwait	Execution and coordination of time-sensitive sourcing, field requirements, and operational follow-through.
Qatar	Execution and coordination of time-sensitive sourcing, field requirements, and operational follow-through.
Bahrain	Execution and coordination of time-sensitive sourcing, field requirements, and operational follow-through.
Oman	Execution and coordination of time-sensitive sourcing, field requirements, and operational follow-through.

Requirement Intake

- Project region or Gulf markets involved
- Timeline and urgency level
- Required services or support mix
- Any live coordination, sourcing, or field issue affecting execution

Positioned to support contractor-led and U.S.-linked operations requiring reliable execution across the Gulf region.
